**This Price List is for the Benefit of Those Who Have Received  
Our Book  
"CONSIDER THE LILIES"**

If you have not yet received this valuable book on Lilies we would advise you to write for particulars.

**PRICES OF LILIES FOR 1928**

**Delivered Free in United States**

**SIZES OF BULBS**

All bulbs offered by us are flowering size. Some of these may be quite small while others are large owing to the nature of the Lily. By noting in the column "Size of bulb" we have tried to give the purchaser an approximate idea of what to expect. Owing to crop conditions some of these may be slightly smaller than specified and on the other hand others may grow larger.

The figures give the size in circumference. For instance 9/11 means that the bulbs are 9 to 11 inches in circumference. Some Lilies make rhizome-bearing bulbs which really cannot be measured in circumference as some are quite long. These are designated as R.

**TIME OF DELIVERY OF BULBS**

We have formerly been obliged to depend upon foreign sources of supply for many varieties of Lily bulbs. Now we have made large plantings here of most of the varieties to facilitate the filling of orders in October and stated times.

In the column "Delivery time" we are stating the approximate time of delivery of bulbs. Where we state Dec.-Spr. it means that these bulbs arrive from Japan too late to plant outdoors in this latitude but anyone desiring them at that time may have them, otherwise we place them in cold storage for early spring delivery. Where a ? mark appears it means that the delivery time is indefinite and particularly the varieties from Burma and the Shan States. In this case we would hold your order for same and fill when possible.

\* These varieties are available in Spring 1928 if desired.

**NOTE CHANGE IN PRICES**

In our endeavor to popularize some of the rarer varieties we have reduced prices wherever possible and hope to continue doing so when conditions permit. These reductions appear in some of the choice varieties such as Chaledonicum, Cernuum, Japonicum Alexandrae, Martagon Album, Monadelphum, Regale, Testaceum, etc. In a few instances we have been obliged to raise the price to enable us to provide good flowering bulbs.
